## **ASEAN Power Grid Energy Storage Manufacturers**

### **Overview**

The Philippines stands as the dominant force in the ASEAN energy storage market, commanding approximately 30% of the total market share in 2024. The country's leadership. Indonesia's energy storage market demonstrates robust development, supported by the country's comprehensive energy transition strategy and ambitious decarbonization. Malaysia's energy storage market exhibits steady development, characterized by a strategic approach to energy storage deployment and grid. Vietnam emerges as the most dynamic market in the ASEAN energy storage sector, projected to grow at approximately 11% annually from 2024 to 2029. The country's remarkable growth trajectory is underpinned by its aggressive renewable energy targets and. The energy storage markets in other ASEAN countries, including Singapore, Thailand, Myanmar, Cambodia, Brunei, and Laos, each present unique characteristics and.
