High quality wiring a breaker in New-Zealand

Overview

The switchboard protects the electrical wiring system in your home. It comprises the main power switch, along with a number of fuses, or circuit breakers. Each fuse or circuit breaker corresponds to a different area of wiring in your home. In the event of an electrical fault the fuse will. Follow this guide when replacing some types of fuses:

1. Turn off the main power switch at the switch board.
2. Look inside the switchboard for a.
