Somaliland containerized generator sets

Overview

Somalia and the Republic of Somaliland are among the countries with the highest energy prices in the world. The electrical power generation system primarily consists of isolated city grids of diesel generators. At the same time, demand for electrical energy only continues to grow as. "The requirement was clear: Berbera needed a scalable energy supply that could be monitored and managed centrally within the shortest time frame possible. The DHYBRID. BEC now uses Dhybrid's open-technology Universal Power Platform (UPP) as a process control system and monitors its energy grid with the Scada system from the very same.
